

WATERPLAY®

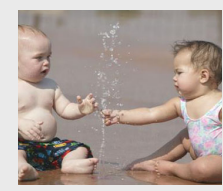

PARKEQUIP

park & play solutions

Parkequip is proud to be the NSW Distributor of this fantastic product. A Waterplay® spray park is safe and fun for everyone, because water is drained away before it can accumulate, thereby eliminating the risk of drowning. Spray parks cater to children of all abilities, toddlers to teenagers. Waterplay® components provide a safe and accessible play area for those in wheelchairs.

Make Parks Fun Again!

"Another Quality Product from Parkequip"

Technical Specifications

- Waterplay® offers both drain away and re-circulated systems.
- All systems have the ability to be programmable through controllers to ensure optimum user times.
- Low, medium and high flow nozzles are available.
- We offer a spectrum of creative products made from stainless steel and aerospace aluminium.
- Our Delrin® nozzles prevent bonding of metal parts, guarantees high performance and superior longevity, and are lead-free.
- Advanced, easy to use electronic controllers and activators utilise technology to optimise water consumption and handle heavy usage.
